EYEBROWS

Anyone who requires emphasis of the 'brows' will love this procedure and the same time saved never having to pencil again. Once a micropigmentation procedure is complete you can swim, partake in sporting activities or just lie in the sun without the worry of ever again losing your 'brows'. Choose between a soft textured look or hair simulation. If you have no brow hair, or sparse 'brow due to over plucking the difference balanced brows can make is amazing.

EYELINER AND EYELASH ENHANCEMENT

Full lip colour is also available in a shade of crisp, correct or redefine lips. For more striking effect stronger colour can be applied.

e-raise non laser tattoo removal

Don't let an unwanted or unsightly tattoo stop you from wearing the clothes you want or stand in the way of your career!

Are you fed up of wearing long sleeve shirts in the summer, or covering up when everyone else is stripping off?

Or perhaps your tattoo serves as an all too permanent reminder to an uncomfortable or unwanted memory?

Until recently getting an unwanted tattoo removed has been a daunting task, but now there is a revolutionary method of ink extraction developed in the USA to remove that tattoo quickly, easily and permanently.

The e-raise system works much like having the original tattoo, but instead of ink uses a specially formulated cream that bonds with the original tattoo ink and draws it to the skin surface. The cream doesn't remain in the skin, or replace the tattoo.
